Introduction

 Dr. Gusztáv Adamis hon. Associate professor I.E.345 adamis@tmit.bme.hu

 Dr. Tibor Cinkler professor
 I.E.319b cinkler@tmit.bme.hu

Labs

- Goal: getting to know in practice what was said at lectures
- 3 on-line labs
 - LAN
 - Ethernet measurement
 - GNS3 in a virtual environment with simulated Mikrotik WiFi routers
 - VoIP
 - Getting to know a VoIP (Voice over IP) system
 - Asterisk electronic switch software
 - IPTV
 - Examination of real-time (recorded with DVB-T) TV stream
 - Getting to know IP multicast (IGMP).
 - Quality control: channel change time, tv guide download time, ...
- Approximately 4*45=180 minutes each

Lab requirements

- You can make it at home at any time
- The measurement reports shall be uploaded to Teams (Assignments)
 - 10 May at latest
 - Strict deadline
 - Only ONE lab can be repeated/improved on the last week
 - Lab average counts in the exam mark with a weight of 20%.
- Do the labs on your own
 - Not difficult measurements
 - They are interesting
 - They don't last unrealistically long
 - You can learn a lot from them
 - If you have questions, you can ask them in the given lab's Teams Channel

Lab requirements

- There is a dedicated Teams Channel to each lab
 - Should you have questions you can ask them here
- Under 'Files' tab in it you can find
 - A virtual machine image by which you can carry out the measurement (VoIP, LAN) or recorded voice and image files that you shall analyze (IPTV)
 - A User Guide that contains
 - Summary of theory
 - Introduction how to use image
 - Reference guide to tools/programs in image
 - Report file
 - Contains the detailed exercises you have to carry out + questions
 - You shall write your answers into it
 - Shall be uploaded

If you get stuck...

- First read the User Guide carefully
- Discuss with your colleagues, who completed the lab yet
- Ask question on the lab channel
 - But before read it through, probably some of your colleagues asked it before and was answered

Lab supervisors

- Ivett Kulik
 - VoIP

- Al Nahdi Amad Salim
 - LAN
 - IPTV

Planned schedule

09.04 Tue 14:15-15:45	Lab requirements Historical overview
	Voice transmission, numbering
	Analog systems
10.04. Wed 8:30-10:00	PCM, codecs
16.04. Tue 14:15-15:45	VoIP
17.04. Wed 8:30-10:00	IPTV
23.04. Tue 14:15-15:45	Signaling
24.04. Wed 8:30-10:00	Fiber Optic
30.04. Tue 14:15-15:45	Test
07.05. Tue 14:15-15:45	Mobile Networks
08.05. Wed 8:30-10:00	Repeated Test
14.05. Tue 14:15-15:45	Mobile Networks
15.05. Wed 8:30-10:00	Mobile Networks
21.05. Tue 14:15-15:45	WiFi
22.05 Wed 8:30-10:00	Mobile Networks
